RECORD OF ACTION

25X1A2d SUBJECT: Project [REDACTED] (OTR Film Unit proposal)

At its meeting on 19 February 1953 the Project Review Committee approved the basic objective of the project (i.e., the production of training films) but expressed the view that the possibility of obtaining the use of Defense Department facilities should be explored before decision is made with regard to the appropriateness of the plan proposed by the project. The Committee instructed that the question of Defense Department possibilities be raised with General Cabell and that the obligation of that Department under NSC 10/5 be taken into consideration.
